

Abstract of the disclosure

5 The present invention relates to a herbicidal composition comprising

A) one or more compounds of the formula (I)

where V is an unsubstituted or substituted heterocyclyl radical or a radical $-\text{CR}^\alpha = \text{CR}^\beta \text{R}^{\beta 1}$, where R^α and R^β are identical or different carbon-containing $\text{C}_1\text{-C}_{40}$ radicals which together can form an unsubstituted or substituted ring, and $\text{R}^{\beta 1}$ is OH or a carbon-containing $\text{C}_1\text{-C}_{40}$ radical, and Z is an unsubstituted or substituted aryl radical, and

B) one or more surfactants comprising, as structural element, at least 10, alkylene oxide units.
